

COATINGS

DuraShield

Pavement maintenance coating.

Two-component epoxy-modified acrylic. Solar-reflective options.

A maintenance coating for asphalt. Resists fuel, oil and de-icing agents, cools the surface, and protects the substrate underneath, extending the service life of the pavement.

For parking lots, driveways, pathways and LEED sites, it maintains a surface instead of replacing it.

TYPE	Two-component epoxy-modified acrylic
SURFACES	Asphalt
CHEMICAL RESISTANCE	Fuel, oil, de-icing agents
SOLAR REFLECTANCE	Optional: SR Gray
SKID RESISTANCE	Meets ASTM E303

PARKING · DRIVEWAYS · PATHWAYS · LEED SITES

HOW IT GOES IN

Maintain the surface instead of replacing it

A maintenance coating for asphalt, old and new: it resists fuel, oil and de-icing agents, cools the surface with its solar-reflective option, and protects the pavement underneath.

LUNCH & LEARN

A Lunch & Learn on DuraShield

Sixty minutes with your engineering, landscape architecture or planning team, in your office or online: the specification, the samples and your questions. Lunch is on us (a $25 voucher when the session is virtual), and nothing is invoiced.
