A finished Fast Patch DPR repair

ASPHALT & CONCRETE REPAIR

Fast Patch DPR

Pourable polymer repair for potholes, spalls and utility cuts.

Back in service in about an hour at 21°C.

Fast Patch DPR is a distressed pavement repair material for asphalt and concrete: a pourable polymer blend of recycled and renewable materials for high-strength repairs to potholes, spalls, joints, wheel paths and utility cuts.

With minimal site preparation, a repair is back in service in about an hour at 21°C, and the optional Fast Patch Kicker accelerator shortens the cure in cooler conditions. It bonds to the surrounding pavement and resists freeze-thaw, and because it is odourless and 100% solids it can be used indoors, on warehouse floors.

TYPE	Pourable polymer-blend pavement repair
MADE FROM	Recycled and renewable polymers
RETURN TO SERVICE	About 1 hour at 21°C
COLD WEATHER	Fast Patch Kicker accelerator shortens the cure
SURFACES	Asphalt and concrete, indoors too

POTHOLES · SPALLS · JOINTS · UTILITY CUTS

HOW IT GOES IN

Mix, pour, finish

01

Mix

A pourable polymer blend, made from recycled and renewable materials.

02

Pour

Poured into the pothole, spall, joint or cut, with minimal site preparation.

03

Finish

Back in service in about an hour at 21°C; the optional Fast Patch Kicker shortens the cure when it is cool.

INDOORS TOO

Odourless, 100% solids

Fast Patch DPR can be used indoors, on warehouse floors, as well as on roads, parking lots, sidewalks and utility cuts.

WHERE IT GOES

Roads, lots, sidewalks and floors

Roadways	Potholes, wheel paths, joints
Parking lots	
Sidewalks	
Warehouse floors	Indoors
Utility cuts
