PREFORMED THERMOPLASTICS

TrafficPatterns

You design it, we build it, our certified installers make it last.

Anti-skid aggregate is intermixed through the full cross-section, so the grip lasts as long as the colour. Custom designs to fit with the community.

On site it is heat-applied, where it bonds to the surface, and it opens to traffic within hours. It is made for snowplow blades, de-icing salts and Canadian freeze-thaw cycling, and the same material carries a standard crosswalk, an entrance feature and an Indigenous-designed crosswalk.

THICKNESS	125 mil (3.2 mm)
AGGREGATE	Anti-skid, through the full cross-section
SKID RESISTANCE	60 BPN, ASTM E303
INSTALLATION	Heat-applied, bonds to the surface
SURFACES	Asphalt and concrete
SERVICE LIFE	8+ years

> “I love how colour can enliven a space, and I hope this design reminds people of the beauty and importance of pollinators to our lives and ecosystem.”
>
> Lindsey Kyoko Adams, artist, on her Bees and Flower crosswalks for the District of Sechelt, British Columbia

CROSSWALKS · ENTRANCE FEATURES · PARKS · PARKING LOTS

HOW IT GOES IN

Made to your design, heat-applied on site

Your artwork is made in the factory as preformed thermoplastic, 125 mil thick, in the colours you choose. On site the sheets are heated with a propane torch or an infrared heater until they bond to the asphalt or concrete, and the crosswalk opens to traffic within hours.

ON THE JOB

Seen from the sidewalk as well as the driver's seat

UBC Musqueam crosswalk
Vancouver, British Columbia
Product Portfolio Book, page 106

Kwanlin Dün Cultural Centre crosswalks
Whitehorse, Yukon
Product Portfolio Book, page 113

Seaside Stroll crosswalk
White Rock, British Columbia
Product Portfolio Book, page 69

COLOUR

Thirty-seven colours

Formulated for UV stability. Natural brick blends: Sand, Chestnut, Brick Red and Dark Red Brick. Physical samples available by request.

WHERE IT GOES

In the Product Portfolio Book

Crosswalks	125 mil, aggregate-reinforced	p. 46
Creative design	125 mil preformed: custom designs	p. 56
Pedestrian safety	125 mil, aggregate-reinforced	p. 62
Public art	Large-scale interconnected thermoplastic	p. 66
Community branding	Streetscape enhancement and beautification	p. 68
