

CUSTOM SURFACE SIGNAGE

DecoMark

Custom thermoplastic graphics. Factory-fabricated from vector artwork.

Custom preformed thermoplastic for horizontal surface graphics — logos, wayfinding, civic art, school spirit, community-pride installations. Factory-fabricated to vector artwork in 24×36-inch multi-colour segments, then heat-fused to asphalt or concrete (including green concrete). Anti-skid aggregate at 9 Mohs — the hardest in the line — is embedded through the 125-mil cross-section. Independently documented to last 6 to 8 times longer than painted alternatives. ADA-compliant pedestrian and wheelchair-friendly surface. Spec from a 35+...

THICKNESS

125 mil (3.18 mm) minimum

ANTI-SKID

≥ 9 Mohs — hardest in line

SKID RESISTANCE

≥ 60 BPN (ASTM E303)

STANDARD SHEET

24 × 36 in factory-assembled
