

REGULATORY PAVEMENT MARKING

PreMark

Pre-cut regulatory thermoplastic. Lasts 6–8× longer than paint.

Pre-cut preformed thermoplastic regulatory pavement markings — arrows, stop bars, yield triangles, school-zone legends, bike pictograms, accessible-parking symbols (ISA), crosswalk lines, rumble strips. Heat-applied with an industrial propane torch with no surface preheating, drive-on immediately. Specify by manufacturing finish: BD (Beaded — full retroreflectivity for vehicular markings); VG (ViziGrip — beads + anti-skid for crosswalks and bike lanes); NB (Non-Beaded — for reversible arrows); SK (Skid-Only — for...

FINISHES

BD (Beaded) / VG (ViziGrip) / NB / SK

COLD-WEATHER VARIANT

PreMarkXF — no minimum temp

INSTALL

Industrial propane torch, drive-on

RECYCLED CONTENT

Up to 60%

ARROWS · STOP BARS · SCHOOL ZONES · ACCESSIBILITY
