

CONCRETE AND ASPHALT REPAIR

Fast Patch DPR

Cold-mix polymer repair for potholes, spalls, and utility cuts. Back in service in under an hour.

Fast Patch DPR is an easy-to-apply distressed pavement repair material for asphalt and concrete — a polymer blend of recycled and renewable materials engineered for high-strength, fast-return-to-service repair of potholes, spalls, joints, wheel paths, and utility cuts. Clean the area, apply the material, compact, and the repaired surface is back in service in under 45 minutes. Bonds chemically to the surrounding substrate with...

TYPE		COMPOSITION	
Polymer-blend pavement repair		Recycled + renewable polymer matrix	
CURE TIME		COLD WEATHER	
Return to service in <45 minutes		Fast Patch Kicker accelerator compatible
